

LEFKO VILLAGE COMPLEX

RHODES

DESCRIPTION & FEATURES

Lefko Village Complex rests on the upper side of a beautiful picturesque village located southwest of Rhodos, offering a panoramic view of the valleys stretching up to the sea.

The 12 Luxury Villas and Suites of the Lefko Village with balconies overlooking the Aegean, share the same taste in elegance and style, but each villa maintains an individual ambiance depending on its different decorating touches. The Villas offer spacious and comfortable living rooms with soft couches and fire place on one side and a fully equipped kitchen on the other, both being elegantly separated by different levels. Traditional style sitting areas are set on a large elevated wooden platform, while in an effort to retain the image of the old village houses, white washed reeds with wooden beams have been used for the living room's ceiling.

All bedrooms contain luxurious mattresses and luxury items such as of fine linen, towels, and natural bath amenities.

Its picturesque setting, its remoteness and its tranquility, give Lefko Village a special charm all of its own. It retains its traditional village center with narrow streets, jostling traditional houses, many of which have been lovingly restored to their former glory.

The aim of Lefko Village is to orchestrate a complex array of interior and exterior spaces, which harmoniously combine tradition with minimalist and modern facilities and create an "artistic" community. Attention has been given to detail through decorating ideas, adapting unique elements

from the village and enriching them through innovative inspirations.
